

MADHURA K

EDUCATION

2023 -2027

BE - ELECTRONICS AND COMMUNICATION

KONGU ENGINEERING COLLEGE

CPGA : 8.55/10

2021 - 2023

SVN MATRIC HIGHER SEC SCHOOL,ERODE

PERCENTAGE : 80.5

SKILLS

- Logic gates
- Verilog coding
- Basic circuit design
- Model Sim
- Leadership
- Adaptability

AREA OF INTEREST

- Vlsi
- Digital Electronics
- Communication

LANGUAGES

- English
- Tamil

CONTACT

+91 9384782665

The Nilgiris,India

PROFILE INFO

Electronics andCommunication Engineering student with a solid understanding of core ECE concepts, including digital electronics, communication systems, and circuit analysis. Quick learner with a strong interest in gaining hands-on industry experience..

PAPER PRESENTATION

WATERLEVELMONITORINGSYSTEMUSING WIRELESS COMMUNICATION

- Presented a paper titled “Water Level Monitoring System Using Wireless Communication” and won **1st Prize** at TechThirst–I.

PROJECT PRESENTATION

DIGITALNOTICE BOARD WITHSD CARD

- Developed a digital notice board system that displays messages stored in an SD card using a microcontroller, enabling easy update of notices without manual rewriting.

PWM GENERATOR

- Designed and implemented a PWM generator on an FPGA kit, developed the design using HDL, and generated the netlist for hardware implementation and verification.

WATER LEVEL MONITORING SYSTEM USING WIRELESS COMMUNICATION

- Developed a prototype for wireless monitoring of water levels using sensors and communication modules for real-time tracking.

SIMULATION HACKATHON

- Won **1st Prize** in Simulathon(ANSYSHFSS) for designing and simulating a Rectangular Microstrip Patch Antenna.
